### The problems we solve

*"Too busy pushing square wheels?"*

*Stop compensating for structural inefficiency with operational overload.*

#### Slow Invoicing & High DSO

Excessive delays between time entry, approvals and invoice issuance. A direct hit on cash.

#### Errors & Margin Leakage

Missing line items, inconsistent rules and frequent corrective credit notes that erode profitability.

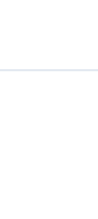

#### Complex Business Models

Mixed models (time & materials, milestone-based fixed price, recurring, intercompany) are hard to run in a single tool.

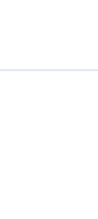

#### Scattered Data

Duplicate entry across CRM, projects, timesheets and finance. Wasted time and loss of data integrity.

#### Limited Visibility

No reliable view of actual margin by project and by client. Flying blind.

#### Painful Month-End Closes

Complex accounting exports and time-consuming manual checks at month-end.

## Key Features

Functional coverage built for operational excellence.

#### Project Management & Planning

##### ANTICIPATION & CONTROL

- Smart planning: capacity vs. workload.
- Project milestone tracking.
- Reliable landing forecasts.

#### Time & Expense Tracking

##### REAL-TIME TRACEABILITY

- Smooth mobile & desktop entry.
- Multi-level approval workflows.
- Full traceability of time allocations.

#### Powerful Billing Engine

##### MULTI-MODEL & COMPLEX

- Handles T&M, fixed price, milestones and subscriptions.
- Multi-entity & automated intercompany rebilling.
- Granular handling of expenses and disbursements.

#### Automated Rules & Controls

##### ZERO ERRORS

- Rate/contract consistency verified.
- Anomaly alerts before invoicing.
- Drastic reduction in credit notes.

#### Financial Reporting & Steering

##### TRUE PROFITABILITY

- Margin by project/client in real time.
- Billed vs. earned revenue (cut-off).
- Streamlined accounting pre-close.

#### International & Integration

##### SCALABILITY

- Compliant multi-currency / multi-tax.
- API & connectors (accounting, SSO, BI).
- Clean inbound/outbound data flows.

## Our Competitive Advantages

Why choose Alibeez?

#### Speed of Execution

From approved time to invoice in a few clicks. Immediate cash-in acceleration (fast billing).

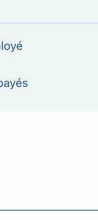

#### Complexity Coverage

T&M, fixed price, recurring, intercompany, multi-currency: all handled in one centralized tool.

#### Data Reliability

Built-in controls and audit trail. Centralized pricing rules = fewer errors, fewer credit notes.

#### Real-Time Business Steering

Margin and profitability are visible and dependable before the accounting close.

#### 100% SaaS & Scalable

Fast deployment, benefits visible within weeks. Scales from 10 to 5,000 employees.

#### Business Expertise & Support

Expert support and guided implementation, purpose-built for services firms.

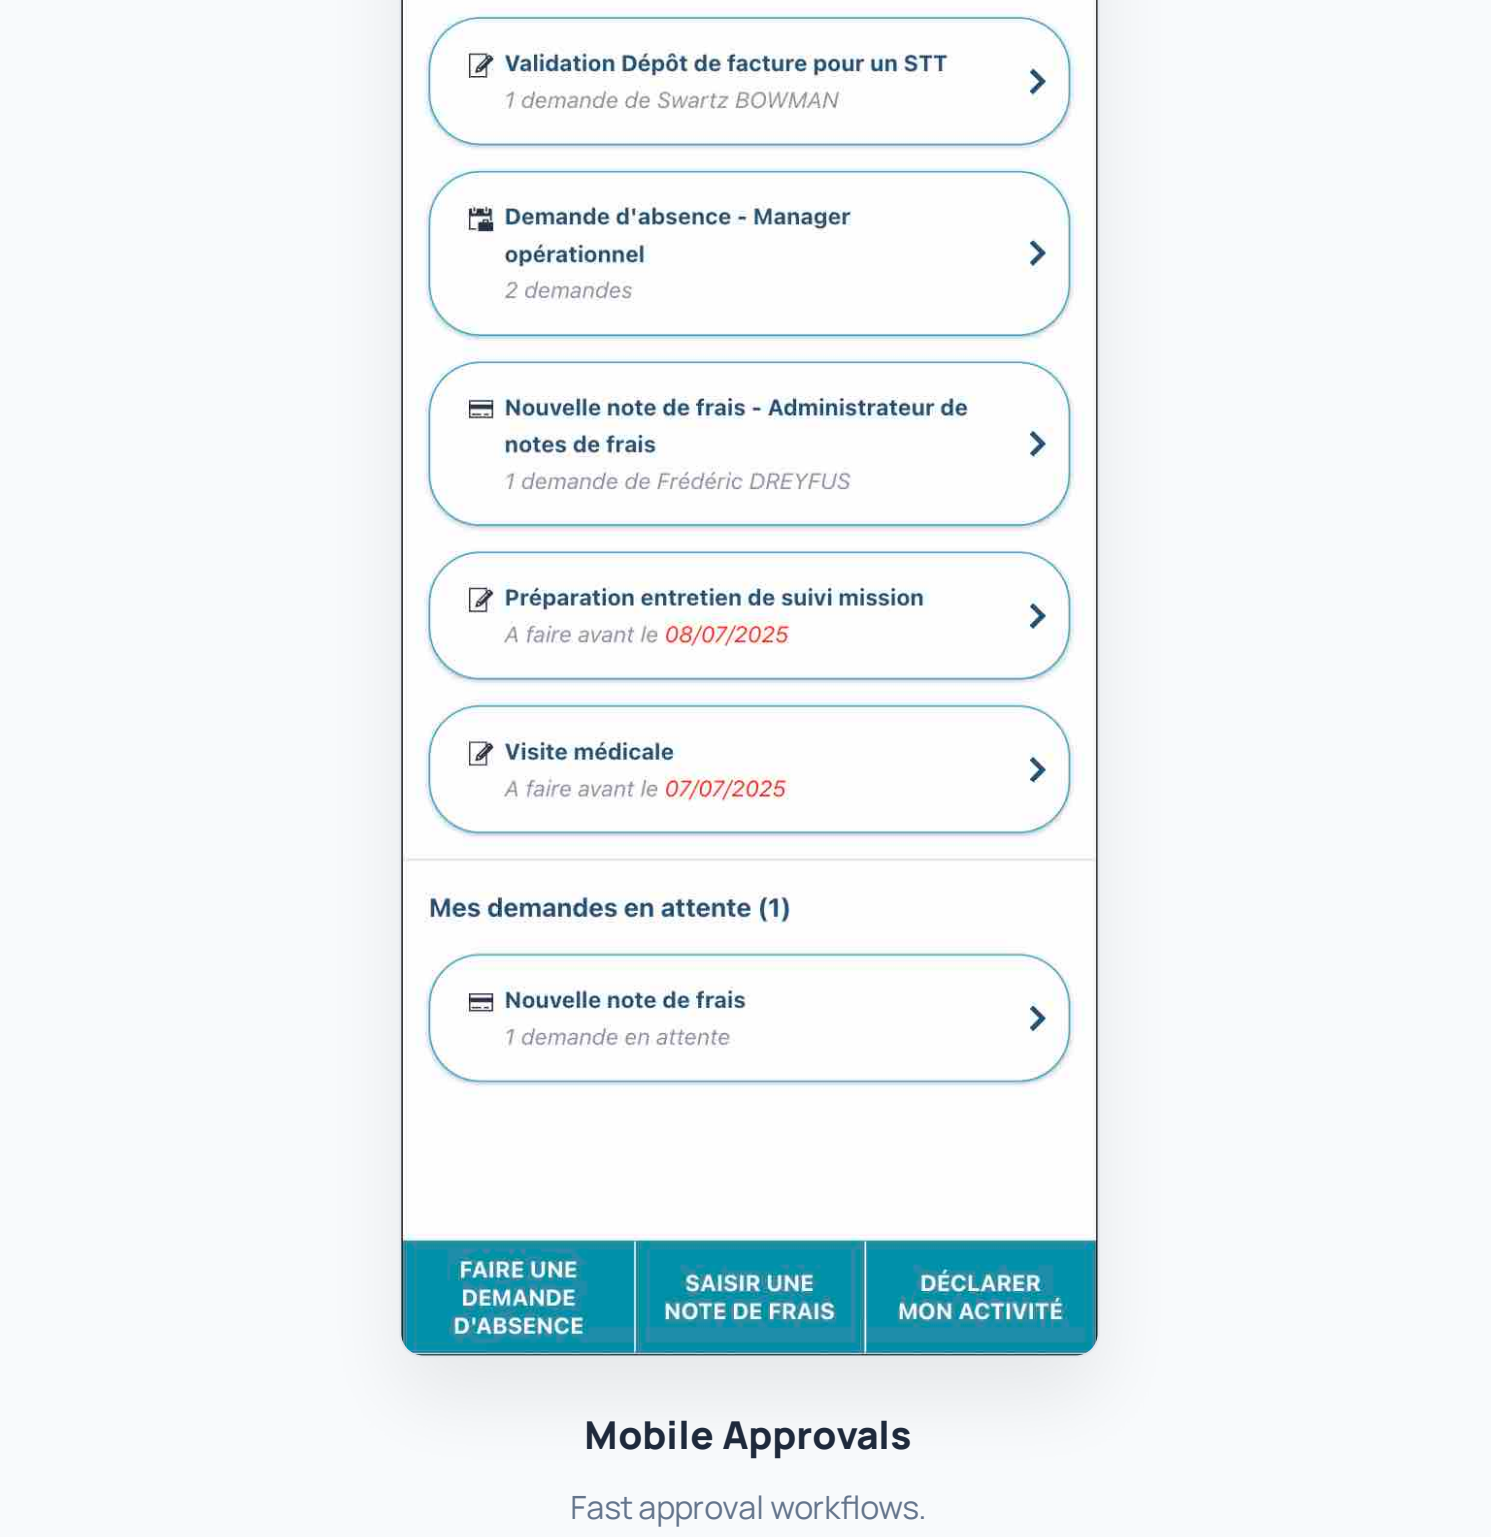

## Intuitive, Modern Interface

High user adoption

[100% SaaS](#)[Multi-Site / Multi-Country](#)[Scalable](#)[Open API](#)
